## When Winning Really Counts

# Folding Winning Post

Allan Scott Park Morphettville, Adelaide

Steriline Racing has developed a new fold-down winning post which provides racecourses with both the practicality of an uninterrupted view across two race tracks, and that all-important impressive finish. High profile advertising space makes this a value-adding feature for your racecourse.

- Stability is a key feature of the winning post, ensuring the reliable operation of photo finish cameras.
- An easy-to-operate fold down system allows the winning post to be used on racecourses with two race tracks, folding out of sight to give uninterrupted viewing of the inside track.
- Incorporating digital or fixed advertising screens, the winning post provides a race club with an opportunity to increase advertising and sponsorship opportunities.
- A flexible modular design allows the winning post to be built to fit the requirements of your racecourse, and allows for additional panels to be added in the future.
- Decorative features of the winning post can be tailored to suit the atmosphere and style of your racecourse.
